EXAMINER'S AMENDMENT

1. Claims 1-9 and 11-14 are allowed.
2. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Michelle Whittington on 2/4/09.

3. Amend the preamble of claim 1 to read: "A method of personalizing user call features in a policy-based network management system for a telephony call processing system, comprising:".
4. Amend the first limitation of claim 1 to read "receiving from a remote system a user-entered call feature policy entered in a natural language that is understandable to a user;".
5. The following is an examiner's statement of reasons for allowance: the prior art fails to teach or suggest a method for receiving user-entered telephony policies in

Art Unit: 2452

a natural language, converting the policy from the natural language to an executable feature language, and then translating the policy from the executable feature language to a policy conflict detection language in order to detect, report, and correct telephony policy conflicts; wherein the policy is then re-integrated into the executable feature language, and whereby each policy is personalized and local to only the relevant user.

The prior art generally discusses telephony and correction of network policies, but it does not adequately equate to the specific details of the various languages in the realm of telephony as claimed by Applicant.

Any comments considered necessary by Applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
